Long-Term
Care Education
and Planning
Program for
the **GANNON**
UNIVERSITY
Alumni
Association

LONG-TERM CARE IS DIFFICULT ENOUGH ON ITS OWN; WHAT MAKES IT EVEN MORE DIFFICULT IS A LACK OF PLANNING.

Your Alumni Association believes that all its members deserve to have an education on long-term and extended health care planning, and we strongly encourage you to evaluate your needs.

It's difficult for working-age adults and healthy seniors to imagine a time when they might need long-term care; it seems so far off. While many people do need this type of care as the natural result of aging, millions of Americans under the age of 65 need it as the result of a debilitating disease or injury. Therefore, it's important that everyone understands their options and the consequences of their choices regarding long-term and extended health care planning.

The topic of long-term and extended health care planning tends to generate both questions and anxiety. Making decisions related to this important topic can be so challenging that it is easier to just put it off until another day, but therein lies the problem. Education is the solution.

Available to alumni and their extended family members, this comprehensive, no cost educational program is being provided by Loesel-Schaaf Insurance Agency of Erie and their nationwide network of LTC Education and Planning Specialists.

WHAT IS YOUR PLAN TO PROTECT YOUR MOST IMPORTANT ASSET – YOUR FAMILY?

Gannon University Alumni Association invites you and your family to take advantage of an opportunity to receive valuable information on a topic that is increasingly affecting the lives of millions of Americans – the need to plan for long-term and extended health care.

"I'm not going to a nursing home."

Long-term care is not a place, it's an event. 70% of care begins in the home; over 60% of care ends in the home.

"I'm too young to think about it."

Over 40% of people currently in care are under the age of 65.

"It won't happen to me."

70% of those reaching the age of 65 will need some type of long-term care services during their lifetime.

LTC planning isn't about you. It's about the financial, physical and emotional consequences on those you love the most in the event care is needed. So please ask yourself – what is my plan?
